

## JOB DESCRIPTION

**Vacancy:** Senior IT Analyst  
**Reference:** GRPSTA1  
**Date:** 28 March 2019  
**Contract:** Permanent  
**Reporting to:** PMO Manager  
**Location:** Newforge Lane, Belfast

### ***Your new company...***

As Viridian Group we are already working for you every day.

How? As Ireland's leading energy provider, we generate and supply energy to hundreds of thousands of homes and businesses across the island of Ireland via our **Power NI**, **Power Procurement** and **Energia** businesses. Chances are, when you flick the switch we've had something to do with the lights coming on.

As you can imagine, powering over 1 million customers takes a pretty big team of people who are as powerful and energetic as the electricity we supply. Our industry is in a constant state of change and we need exceptional people like you to help us deliver the future of energy. So... are you ready to switch on your career with Ireland's leading energy provider?

### ***What we offer...***

Joining us on a permanent basis, you'll receive a competitive salary plus an attractive bonus structure. With a market leading benefits package including up to 36 days leave a year (25 days annual leave and 11 days bank/public holidays), generous company pension scheme, private healthcare for all the family, access to Learning and Development opportunities, Wellbeing Programme, Subsidised Gym Membership and free onsite car parking!

### ***Your new role...***

The successful candidate will report to the PMO Manager and will be responsible for ensuring the successful implementation of technical solutions that have been designed and approved by the Strategy & Architecture team for projects, within Viridian.

### **Main Duties:**

- Ensuring the successful implementation of IT solutions that have been designed and approved by the Strategy & Architecture team
- Working with the Strategy & Architecture team to fully understand the designs and ensuring they meet the project need
- Representing the project team at a technical level and presenting at the technical design authority and to project stakeholders, if applicable
- Holding 3rd parties to account on their technical delivery for projects within Viridian
- Communicating business specifications in a clear and concise manner to both internal and external parties

Committed to Fairness  
and Equality at Work

- Delivering continuous process improvement
- Acting as a system subject matter expert by responding to and developing ad hoc queries and providing application support
- Responsible for providing root cause analyses to application system issues
- Responsible for providing support and development to business process areas
- Responsible for translating business requirements into IT solution blueprints
- Enhance staff accomplishments and competence by planning delivery of solutions; answering technical and procedural questions for less experienced team members; teaching improved processes; mentoring team members

### **Benefits and Location**

The post will be offered on a permanent personal contract basis and will include an attractive benefits package, including a salary to reflect the skills and experience of the successful candidate. The post will be based in our offices at Newforge Lane, Belfast.
